

## Primary

These are the splashes of color that should appear the most in your UI, and are the ones that determine the overall "look" of the site. Use these for things like primary actions, links, navigation items, icons, accent borders, or text you want to emphasize.

### Hunter Green

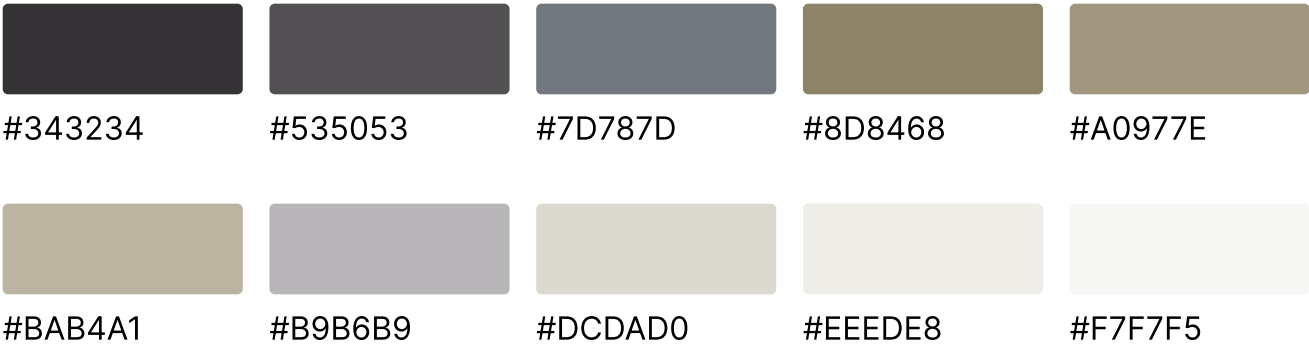

### Sage Green

## Neutrals

These are the colors you will use the most and will make up the majority of your UI. Use them for most of your text, backgrounds, and borders, as well as for things like secondary buttons and links.

### Cool Neutrals

## Sample websites using these colours
